

Wilmington Del
Apr. 7th 86

Dear Sir

Will you kindly inform me what is the value - in U.S. money, of the Norwegian "öer"? I have a letter from Norway giving me the price of an article as "65 öer per kilo." I do not know the exact value of the coin named and cannot calculate the value. Our Customs officer has no list giving the value of the "öer."

Very truly, Yrs

Geo. W. Roberts

Wants to know value
of Norwegian "Oer"

received

The Mint of the United States,

AT

PHILADELPHIA, PENN.,

Assay Department, _____, 188 .

There is a little difference in value
 between the Gold and the Silver rate. —
 The Money of Account is the Crown of
 100 ~~ore~~ ore — 20 crowns Gold worth
 $\$2.68$. — 1 Crown $\$0.268 = 100$ ore
 65 ore would be worth $\$0.174$

The Crown Silver (100 ore) worth $\$25.7$
 65 Ore would be worth $\$0.167$

I would take the Gold value, as
 Gold is the Standard

[Abstract:] Wants to know value of Norwegian "Der".

Wilmington, Del.

April 7, 1886

Dear Sir

Will you kindly inform me what is the value – in U.S. Money, of the Norwegian "Der"? I have a letter from Norway giving me the price of an article as "65 Der per Kilo". I do not know the exact value of the Coin named and cannot calculate the value. Our Customs Officer has no list giving the value of the "Der".

Very truly &c.

[Enclosed note:]

The Mint of the United States,
At Philadelphia, Penn.,
Assay Department, ___, 188_.

There is a little difference in value between the Gold and the Silver rate. The money of account is the crown of 100 ore - 10 crowns Gold worth \$2.68. - 1 crown \$0.268 = 100 ore 65 ore would be worth \$0.174.

The Crown Silver (100 ore) worth \$25.7
65 Ore would be worth \$0.167
I would take the Gold value, as Gold is the standard.
